

CONCEPTS IN CLINICAL PHARMACOKINETICS

WEB-BASED CONTINUING EDUCATION COURSE

Frequently Asked Questions

When can I enroll in the course?

Enroll anytime! Online registration and additional details are available at www.georgiacenter.uga.edu/is/kinetics.

How long do I have to complete the course?

You have up to 15 weeks to complete Option #1, and an additional three months to complete the ACPE-approved certificate program (Option #2).

Are there course prerequisites?

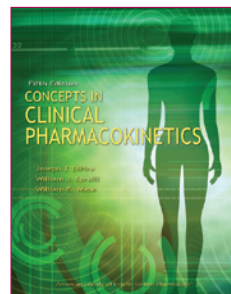

Yes; go to our promotional Web site (listed below) for comprehensive details!

What are the technical requirements for the course?

You must have access to the Internet, a personal e-mail account, and a JavaScript-enabled Web browser with the Adobe Flash plug-in. For more details and to view animated examples (e.g., sliders, formulations, diagrams, etc.), go to www.georgiacenter.uga.edu/is/kinetics.

Do I need to purchase the textbook?

Yes. To complete the course, you will need *Concepts in Clinical Pharmacokinetics*, 5th Edition (ISBN: 1-58528-124-7), Joseph T. DiPiro, William J. Spruill, and William E. Wade.

Can I move about the course and study the lessons in any order, or must I follow the lessons in numerical order?

You must begin with Lesson 1 and progress through each lesson as presented. Your successful completion of each lesson quiz will allow you to progress to the next lesson.

About the Online Course

From clinical to retail pharmacy, from seasoned professionals to pharmacy students, this online course will help you expand your knowledge in pharmacokinetics!

Developed in cooperation with the American Society of Health-System Pharmacists, the **Concepts in Clinical Pharmacokinetics Web-Based Continuing Education Course** is designed primarily for practicing pharmacists and others already working in the pharmaceutical industry wanting to obtain a well-rounded and in-depth knowledge of clinical pharmacokinetics. This 15-week continuing education course is delivered via the

Internet on the fundamental principles of absorption, distribution, metabolism, and the elimination of drugs by the human body as well as clinical application, including case studies of commonly dosed drugs.

Based on the bestselling textbook of the same title, *Concepts in Clinical Pharmacokinetics* (5th Edition), this course is rich in multimedia elements that expand on the text and stimulate learning. These elements provide the basis for an intense,

instructor-facilitated course that brings to life the realities and nuances of clinical pharmacokinetics.

For more information about the *Concepts in Clinical Pharmacokinetics Web-Based Continuing Education Course*, call +1-706-542-3537 or e-mail Pam.Bracken@georgiacenter.uga.edu. Online registration and additional details are available at www.georgiacenter.uga.edu/is/kinetics.

The *Concepts in Clinical Pharmacokinetics Web-Based Continuing Education Course* is presented by the University of Georgia Center for Continuing Education and the University of Georgia College of Pharmacy, in cooperation with the American Society of Health-System Pharmacists.

The University of Georgia College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

To take a free online diagnostic quiz or to view animated examples (e.g., sliders, formulations, diagrams, etc.), go to www.georgiacenter.uga.edu/is/kinetics.

ARE YOU LOOKING TO LEARN MORE ABOUT CLINICAL PHARMACOKINETICS?

Choose one of the course options below to meet your needs:

OPTION #1: APPLICATION-BASED

Concepts in Clinical Pharmacokinetics Web-Based Continuing Education Course (15-week course)

Are you a pharmacist in need of CE hours? Or, are you a pharmaceutical professional wanting to learn more about

Earn ACPE CEs!

kinetics? Register for the 15-week course and earn valuable ACPE CEs (20 contact hours). There are no formal prerequisites for enrollment in the Online CE course; however, in order to earn ACPE CE credit, you must be a licensed pharmacist. If you are not a licensed pharmacist, you are eligible to earn University of Georgia Continuing Education Units. It is recommended that you have previous training or experience in pharmacy and you are comfortable working with mathematics at a precalculus level.

Concepts in Clinical Pharmacokinetics Web-Based Continuing Education Course

OPTION #2: PRACTICE-BASED

Concepts in Clinical Pharmacokinetics Online Certificate Program

Are you a clinical manager of a pharmacy or healthcare organization? Register for the CE course with the additional certificate program (30 contact hours). You have up to 15 weeks to complete the ACPE CE-awarding course and up to three months to complete the certificate program. The *Certificate of Mastery* is intended for practicing pharmacists and requires demonstration of competence in clinical pharmacokinetics in an actual patient care setting. You must be a licensed pharmacist, and you must have access to patient care during the duration of the course.

Earn your certificate through an ACPE-accredited provider!

Concepts in Clinical Pharmacokinetics Web-Based Continuing Education Course

OPTION #3: PRACTICE-BASED

Clinical Pharmacokinetics Online Certificate Program for Advanced Practitioners

Do you already have advanced knowledge in pharmacokinetics and are only looking for the ACPE-Accredited Certificate? If so, you have the option to register for the course's certificate program (15 contact hours). You have up to three months to complete this program. The *Certificate of Mastery* is intended for practicing pharmacists and requires demonstration of competence in clinical pharmacokinetics in an actual patient care setting. You must be a licensed pharmacist, and you must have access to patient care during the duration of the course. Go to the course Web site for more details.

Earn ACPE-Approved Certificate!

Clinical Pharmacokinetics Online Certificate Program for Advanced Practitioners

OPTION #4

Online Course for Pharmacy Schools

Does your pharmacy school require a distance-based kinetics course for your Pharm.D. program? Does your pharmacy school require an alternative remedial option for your matriculating professional students? Perhaps this course is your solution! It is recommended that participants have previous training or experience in pharmacy and are comfortable working with mathematics at a precalculus level.

Special program pricing available for health systems! Go to www.georgiacenter.uga.edu/is/kinetics/group for details!
