How Does *Revenue Administration* Work?

Revenue Administration is a self-study training course offering the basics of revenues generated in a governmental environment. Delivered via the Internet, the course allows you to progress at your own pace, augmented by consultation with a financial professional, upon request.

Revenue Administration will familiarize you with the types of revenues that governments typically generate. You will also learn the history of types of revenues. In addition, you will learn about current trends in governmental revenue administration. You have one (1) month to work through the course lessons.

In the course you'll work at your own pace and on your own schedule, assessing your knowledge through self-tests and end-of-lesson quizzes that provide instant feedback. Your successful completion of the quizzes at the conclusion of each lesson will allow you to progress to the next lesson. Once you have successfully completed all of the lessons, you will have access to the final online course examination. At each step along the way, you'll have access to a finance professional who will respond to your e-mailed questions.

While working with the course, you'll be able to refer to the online help for instructions on how to use the software tools and navigate through the course. For questions about the concepts presented in the course, you will be able to contact a finance professional using the links provided in the course.
