

SPECIAL AWARD SPONSORSHIP FORM

At the Georgia Science & Engineering Fair, Georgia's top middle- and high-school students are invited to showcase their original research, compete for awards, and interact with top-level professional scientists. Participation of outside organizations and businesses in the awards process helps students to understand how their fits into a real-world context and is valued by actual scientists, researchers, and other professionals. The fair's success depends on award sponsors like you. Special Awards encourage research in a particular area, may reward a trait you admire, or may be given for any other purpose you value.
