### How the Course Was Developed

The *Capital Improvement Program* course has traditionally been a certificate/certification course offered in a face-to-face environment only to local employees from the State of Georgia. In 2013, the online version of the CIP course was created as a joint effort between the University of Georgia Carl Vinson Institute of Government and the University of Georgia Center for Continuing Education.

This course was created and administered by the Departments of Web Instructional Development and Special Projects & Curriculum Development at the University of Georgia Center for Continuing Education.
