About the Mid-Term and Final Assessments

The mid-term and final are timed exams. You have up to 90 minutes to complete each. You must complete the mid-term and final assessments in one session each. Therefore, you must allow for adequate uninterrupted time. The assessments consist of objective, randomly generated questions. The questions will be presented to you one at a time. You must answer each question before going on to the next question. You will not have the opportunity to revisit any question once you have answered and saved your answer. You must earn 70% or greater on both assessments to successfully complete this course. If you do not earn a 70% or greater in your first attempt, one retest is available online. The retest is randomly selected and will not duplicate the same questions as the original assessment (first attempt). Once the assessment has been submitted for grading, you will learn your results immediately. If you do not successfully pass the second attempt, you must re-register for the online course.
