Grant Writing Certificate

Course Syllabus

Course Description

This course teaches participants how to follow a step-by-step process that increases confidence when writing a grant proposal. Participants will learn systematic strategies for improving their success with writing compelling and exciting proposals that will generate support for their organizations. Cooperative learning will be integrated in each course session. Cooperative learning is a teaching strategy in which small groups (including learners with different ability levels) use a variety of learning activities to improve their understanding of a subject. Many activities will be structured so that participants depend on each other to work through their common learning activities. Participants will also have an opportunity to apply learned skills from their interactive group sessions during their individual grant proposal writing sessions.

Course Format

This course is offered in varying formats throughout the year; pick the one that works with your schedule.

Live-Online: This format is best for those who are unable travel to campus but like the structure of meeting at set times with your instructor and classmates. This option is available both as a 4-day boot camp and 4-week/8-session course.

On-Campus: This allows students to meet on Saturdays at the UGA Gwinnett Campus in a socially distanced classroom with your instructor and classmates. This is available in both the 4-day boot camp and 4-week/8-session course.

Course Content
