RECERTIFICATION ONLINE COURSE FOR LEVEL II: INTRODUCTION TO DESIGN

After successfully completing this course you should be able to

- Explore the latest changes in the federal and state requirements for land-disturbing activities.
- Explain the requirements of the Georgia Erosion and Sedimentation Act (GESA), National Pollutant Discharge Elimination System (NPDES) and Erosion Sedimentation & Pollution Control (ES&PC) Plan for land-disturbing activities.
- Describe the responsibilities of all parties involved (permits, design professionals, state agencies and federal agencies)

Program Topics

- Georgia Erosion and Sedimentation Act of 1975 (GESA)
- National Pollutant Discharge Elimination System (NPDES) Permits
- Plan Review Checklist and Guidance Document for Common Development
- Determining the Presence of State Waters That Require a Buffer

Earn Recertification and .4 Continuing Education Units (CEUs)

This course is the first self-paced, self-study online course developed by the Georgia Soil and Water Conservation Commission (GSWCC). The course meets the criteria for a Level II continuing education course for the GSWCC and is approved for 4 hours of instruction.

NOTE: This online recertification course is also approved for 4 PDUs for registrants of:

- Certified Professional in Erosion and Sediment Control™ program (CPESC®)
- Certified Erosion, Sediment and Storm Water Inspector™ program (CESSWI™)
- Certified Professional in Storm Water Quality™ program (CPSWQ®)

Register anytime; study anywhere – this online course is available at www.georgiacenter.uga.edu/gswcc.
