The purpose of this document is to provide some key policy information about Summer Academy at UGA. Additional information will be provided in pre-camp communications to parents.

CELL PHONE POLICY

- Students **will** be allowed to keep their cell phones with them during the entirety of camp. In previous years we have taken up cell phones for the academic day, but we've changed this policy. With that, we still want to encourage our students to focus on the interaction with their instructors and fellow students during their academic camp.
- **All students will be allowed to keep their phones during the week, but it will be at the instructor's discretion on when/if students can use their phones during the academic camp.**
- Parents who need to contact their child during the academic camp day for any reason can call the Summer Academy staff. The contact numbers will be included in your pre-camp communications.

MEDICATION POLICY

- We will be collecting all prescription and over-the-counter medications when students arrive at Summer Academy. This is to ensure that only your child has access to their needed medications. Students will be allowed to keep inhalers and epi-pens.
- Students are responsible for knowing when they need to take their medications. They will notify our staff members who will provide the required medication.
- More information about medication procedures will be provided in pre-camp communications.

We are working to continue improving the Summer Academy at UGA experience for all of our students. If you have questions on these policies or anything else regarding Summer Academy at UGA, feel free to contact the Director of Youth Programs, Alyssa Weyant, at 706-201-9427 or alyssa.weyant@georgiacenter.uga.edu.
